# DRAFTOPS

	This is our FFP Report that show you how many possible points a QB, RB or WR/TE can get in the game if they play to their average.							
	If they play a weaker D they may get more if they play a stronger D they may get shut down, so analyze wisely.							
	You will find tabs for QB, RB and WR (includes TE's) and for the full game							
	The alpha tab you can sort by player name to see the possibility of that player n the running and receiving phase of the game.							
	Questions? email me: <a href="mailto:Jose@draftops.com">Jose@draftops.com</a>
